**Part one Reading Comprehension :** ( 12pts)

**Read the passage then answer the questions below :**

People often say East is East and West is West , and the two can never meet However , the history of Spain tell us something different. Here , East and West met for almost 800 years They sometimes fought, but there was real contact between cultures.

When the Muslims arrived in 711 , they took the country over very quickly , They came with new ideas , and they completely changed the land that they called AL- Andalus . With new crops and better ways of farming , AL –Andalus soon grew rich.

The Muslims needed a capital, and they set it up in Cordoba. Here, they built beautiful mosques and palaces, and the city became as important as Baghdad. AL-Andalus became a center of the Islamic World and the center of civilization in Europe.

Its science , medicine , architecture , arts , and crafts became famous. Here Al-Khatib found out how people pass diseases on. Here Al-Zahrawi worked out many new medical operations . Students in both East and West studied the work of people like these for centuries , and we still remember them today.

Spain is now a busy, modern country . But walk the narrow streets of old Cordoba and visit Granada' s amazing ALhambra palace and gardens , and you will find a different Spain. Here, ancient AL-Andalus still lives
