3-Reading(9Marks)

People often say East is East and West is West, and the two can never meet. However, the history of Spain tells us something different. Here, East and West met for almost 800 years. They sometimes fought, but there was real contact between cultures. When the Muslims arrived in 711, they took the country over very quickly. **They** came with new ideas, and they completely changed the land that they called Al-Andalus. With new crops and better ways of farming, Al- Andalus soon grew rich. The Muslims needed a capital, and they set it up in Cordoba. Here, they built beautiful mosques and palaces, and the city became as important as Baghdad. Al-Andalus became a centre of the Islamic World and the centre of civilization in Europe. Its science, medicine, architecture, arts and crafts became famous. Here, Al-Khatib found out how people pass diseases on. Here, Al-Zahrawi worked out many new medical operations. Students in both East and West studied the work of people like these for centuries, and we still remember them today. Spain is now a busy, modern country. But walk the narrow streets of old Cordoba and visit Granada's amazing Alhambra Palace and gardens, and you will find a different Spain. Here, ancient Al-Andalus still lives.
