امتحان نهاية الفصل الثاني لعام 2014-2015 لمبحث اللغة الانجليزية

Part One -READING- (18 points)

Read the following passage and answer the questions:

Your body is like a car. Cars need fuel– and we need food. Your body uses most of yesterday's supply by morning and then **it** needs more. People who forget this and miss breakfast may suffer headaches, and they will certainly be low on energy. On the other hand, scientists say, people who eat a proper breakfast learn better, behave better and are generally healthier. Moreover, people who miss breakfast are especially likely to make up for it later with large portions of things that contain lots of unhealthy fat and calories – a burger perhaps or a pie and some fries. Not surprisingly, **17%** of American teenagers are now very overweight. Dangerous 'killer' conditions often follow in later life – heart' disease, for example. The answer is to eat a healthy breakfast and a balanced daily diet that gives our bodies the nutrients that **they** need. And of course to get more exercise.

A/ Answer the following questions: (6)

1-When young people do not eat breakfast, what are the immediate effects?

2- What are the differences between people who eat and who do not eat breakfast?

3-What effects can this have on people when they get older?
