(III) READING (9 marks)

Read the following four paragraphs and then answer the questions below.

Anna Torres: There are lots of bad TV programs, but the weather forecasts are good. We get bad hurricanes here in America, and they're getting worse. But modern satellites are collecting better information on their speed and direction, and forecasts are getting better. So we understand hurricanes better now, and we now know when and where one will arrive.

Sameer and Hanan Qudsi: We get Palestinian TV and hundreds of other satellite channels, too. Hanan and I love watching cartoons all day! That's bad, I know. But now Mum and Dad say we can only watch serious programs like documentaries. We think that's bad, too!

Ali Magrabi: Like a lot of Moroccan people, my job is fishing, and my mobile is very important in my work. It's expensive, but I can now call different markets from my boat. That means I can find the best market for my fish and take them there. My mobile is giving my family a better life.

Lyn and Mark Lomax: Australian farms are big, and our parents like to stay in contact, so they've given us mobiles. But now we're calling and texting friends more and more, and Mum and Dad are getting angry. They say we're always on the phone when they want to talk – and we shouldn't be! ... Oh, someone's calling now. Excuse me!
