Reading (	( <u>10 Marks)</u>	

## A) Read the following passage and answer the questions:

Istanbul is a city on two continents, with one foot in Asia and the other in Europe. <u>It</u> is not a capital city now: the capital of modern Turkey is Ankara. However, it used to be the capital of empires and is still a great world city today. Its name was Byzantium for 1,000 years, and it grew rich and powerful because East-West trade routes passed through the city – along and across the Bosporus. Then the Romans made it the capital of <u>their</u> eastern empire, and for the next 1,000 years people called it Constantinople. Then Constantinople fell to the Muslim Ottomans. This time, the city's name changed to Istanbul, and it became the heart of a huge empire that reached across large parts of Europe, Asia and North Africa.

Why did Istanbul grow rich and powerful?  Put (T) or (F):  Istanbul is the capital city of Turkey now.  Istanbul was Byzantium for two thousand years.  ()
