You say:

3- Reading Comprehension(8 marks)

Read the following passage and the questions below:

We cannot live without the sun's heat or the air that we breathe, but these givers of life can also become dangerous killers. Moreover, they can behave even more dangerously when they are combined with another great natural force: water. The largest and most destructive results of this are hurricanes. These huge storms can hit land so powerfully that they destroy everything in their path. Wind speeds are 118 kph or more and they really are huge – as much as 800 kilometers across. Hurricanes are so dangerous that everything possible is done to work out their speed and direction. A big hurricane can cause such great destruction that early warnings may save many lives. Information is therefore collected from space satellites, weather balloons and weather stations on land and at sea and forecasts have become very accurate.

A) Answer the following questions. (3points)

1- What are the three givers of life?

.....

2. How do huge storms hit land?

.....
